

ITBA

Instituto Tecnológico
de Buenos Aires

GLOBAL

Instituto Tecnológico de Buenos Aires - ITBA

Instituto Tecnológico de Buenos Aires was created on November 20th, 1959, and it is the only private University in Argentina specializing in Technology, Engineering, and Management. For 60 years, it has contributed to solve the challenges humanity faces through university education of renowned excellence, the production of scientific knowledge, and international collaboration.

Since its foundation, it has educated students with values such as innovation, creativity, entrepreneurship, and leadership. It pursues a unique educational model in the country aimed at research and project generation, together with the early connection of students with companies.

ITBA is a University committed to the country and the people's progress that promotes the development of innovative, entrepreneurial, disruptive, agile professionals with a sustainable vision and a vocation to transform the world.

Today, the University has expanded and has several campuses, such as the Financial District Campus and the Technological District Campus.

Currently, over 11 thousand ITBA graduates are working in the professional world, in public and private companies, and even with their personal ventures and highly successful projects.

OUR ACADEMIC OFFER

Our undergraduate courses provide an excellent education with all available technologies to support the development of active and dynamic professional careers.

The curriculum of our undergraduate programs includes connecting, managing, and participating in projects, taking part in student exchanges, learning from renowned academics and professors, and applying knowledge through the use of the best technology and practice in our world-class laboratories and workshops.
